

PROFILE

I am a professional creative designer with a deep passion for helping people solve problems. I pride myself on being able to develop intuitive and consistent user experiences from conception to implementation.

With 6+ years of experience in studying and applying numerous user behaviour models, I have become very adept at developing interfaces that are able to scale and run on multiple modern platforms.

I have a keen interest in emerging technologies and relish taking on new opportunities that will allow me to further develop my skill set to reach new professional milestones.
